DETAILED ACTION

This action is in response to Applicant's submission dated January 28, 2009 in which Applicant amended claims 1 and 3. Claims 1-7, 10 and 11 are pending and under examination.

Claim Rejections - 35 USC § 112

Examiner previously rejected claims 1-7, 10 and 11 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Based on Applicant amending "another Zn-chelating group" out of claims 1 and 3, Examiner withdraws this rejection.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3 and 6 are rejected under 35 USC 102(b) as being anticipated by Yokoyama, et al., EP 0188094 A2.

Applicant has amended alkyl out of R⁷ and R⁸ in hopes of avoiding the reference. However, Referential Example 7 found on page 30 of the reference still anticipates the claims when A is (a-1), s is 0, t and n both are 1, R³ and R⁴ are both hydrogen, L is a direct bond, R² is methyl, and R¹ is –C(O)NR⁷R⁸, one of R⁷ and R⁸ is hydrogen and the other is hydroxy. Further, Referential Example 9 found on page 32 of the reference also anticipates the claims when A is

Art Unit: 1624

(a-1), s is 0, t and n both are 1, R^3 and R^4 are both hydrogen, L is a direct bond, R^2 is methyl, and R^1 is $-C(O)NR^7R^8$, and both R^7 and R^8 are hydrogen.

As such, claims 1, 3 and 6 are still anticipated by Yokoyama, et al., EP 0188094 A2.

Claim Objections

Claims 2, 4-5, 7, 10 and 11 are objected to as being dependent upon rejected independent claim 1, but would be allowable if rewritten in independent form including all of the limitations of the base claims and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
